**Subject:** HHC TWG Mtg #6  
**Location:** Conf-JNU Water (DEC) (DEC sponsored)  
  
**Start:** Wed 2/24/2016 10:00 AM  
**End:** Wed 2/24/2016 12:00 PM  
  
**Recurrence:** (none)  
  
**Meeting Status:** Accepted  
  
**Organizer:** Tabor, Brock N (DEC)  
**Resources:** Conf-JNU Water (DEC) (DEC sponsored)

02-22-16: Added to presentations, logistics info, and a reference guide to Cancer Risk values used by other states and tribes.

(02-02-16) Hello HHC TW,

DEC has determined that it would be prudent to postpone our Regional approach conversation for another month so the Subgroup can get together and discuss current regional monitoring/data collection efforts.

That said, we will be discussing Issue #3: What is the appropriate level of protection for Alaska and its residents?

- **Issue #3a: How should DEC apply bioconcentration v. bioaccumulation factors?**
- **Issue #3b: How should DEC address concerns about its carcinogenic risk value?**

Attached is the EPA National Bioaccumulation Factors (2015). The document is 12 pages in length. Please consider this reading material for the February 24<sup>th</sup> meeting.

Thank you,  
Brock

(Original Msg)  
Hello HHC Technical Workgroup Members and Technical Advisors,

Based on your responses to the Doodle poll, DEC would like to schedule **HHC Mtg #6 for February 24<sup>th</sup> from 9-11 am.**

I will send materials and an agenda following HHC Mtg #5.

Thanks for your ongoing participation.
